

## Product Description

N.Pro provides a dispatching solution including all main PMR system features. The N.Pro application is based on N.Bridge middleware technology plus N.Rodon. Easy-to-use and easy-to-scale. N.Pro is designed for PMR radio networks for voice (group and individual calls), messaging (including status messaging), GPS Localization and Emergency.

## Flexibility

N.Pro will extend the flexibility of your network. You can use it as a dispatching central software for the following PMR systems:

SEPURA Radios (TETRA), HYTERA (DMR II, DMR III), KENWOOD (ANALOG, NXDN CONVENTIONAL, NXDN TRUNKING, P25, DMR), MOTOROLA (ANALOG, MOTOTRBO DMR), DAMM (TETRA). It runs on Windows 7 and above + Android/iOS devices (on request).

## Compatibility

N.Pro is using N.Bridge, which is a universal solution connecting to different PMR networks over an API interface and expand the PMR network with NETIX PTT software possibilities. The N.Pro concept keeps the idea to provide users with vendor independence.

## Scalability

N.Pro enables you to connect to PMR networks. You can expand your system as desired - anytime and everywhere.

## Profitability

N.Pro is a perfect extension and dispatching solution to any PMR system. It gives cost-efficient advantages and is the best compact solution for your daily needs.

## Interface to PMR

N.Pro is connected to the PMR radio infrastructure via defined interfaces (e.g. API, PEI, XCMP or any other). The features and functions are defined in the scope according to PMR interface and its possible functionality.

## Key Features

### ► Group Call

The core function of any 2-way Radio system. NETIX PTT allows a single person to reach hundreds of users in groups with a single button press.

### ► Individual Call

Allows users to communicate privately outside of a group. A one-to-one simplex call is easy and fast to setup.

### ► Messaging

Allows to send/receive text messages including status messages. Handles text messages in your PMR network.

## Key Features

### ► Status Messages

Add your predefined status messages from your radio system into N.Pro configuration and be prepared to use them as you do during your daily operation.

### ► GPS Localization

Provides an opportunity to obtain GPS coordinates from PMR terminals and NETIX Push-To-Talk clients. The GPS data can be displayed on the N.Pro desktop client map or routed to specified interfaces.

### ► Emergency Call

The activation of Emergency will immediately send an acoustic and visual alarm to the dispatcher, alerting him of an emergency situation.

### ► Recording

All voice communication can be recorded on your hardware. Without adding any other additional tool. Simply switch on your recording without any additional costs. GPS recording is also coming soon.

### ► Group Changing

N.Pro offers the list of existing groups which are programmed into the radio. Simply change the group of the radio by choosing any group on the screen.

### ► Multi-Groups & Multi Listening

Use the Multi-Groups support to communicate with different groups in your network and Multi-Listening to listen to several groups at once!

## Key Features

### ► All Call / Broadcast Call

With one NETIX PTT click you can communicate through all groups and reach radio users in your own group plus all other radio users in other groups and the whole organization.
